

FIRE PANEL QUESTIONS:

How important is it to conform to BABA requirements?

Baba requirements are required for federally funded projects that meet certain guidelines

Will GDPM make a decision for which proposal to move forward with based strictly on the lowest price? I know a BABA compliant system is the preferred solution in regards to funding but those systems are typically a bit more expensive.

Yes we are required under an IFB to award to the lowest and most responsive bid.

The prints show audio and visual in the units. Wanted to verify every unit will have audio and visual devices. 177cd strobes in sleeping rooms and strobes in the living room and bathrooms.

Yes, there are audio and visual devices in all of the units.
